

HEALTHCARE SERVICES

QUEUING

PROBLEMS

Queuing for long period of time often results to more health complications and to fatalities.

SOLUTIONS

Online booking for medication appointments treatments checkups

Accessibility channels apps & telecom companies for sms \ussd

IMPACT

More people actual receive care when they need it, not in weeks or months later

Less overcrowding in health facilities through unlocking modernized digital access.

An African proverb says good health is the greatest wealth.

What is the value of everything we desire if we don't have life and health to enjoy, yet many communities are disadvantaged with health service.

HOW THE APP WORKS

- Create an account
- Book consultations
- Virtual visits
- Get prescriptions
- Manage health – Access your medical history, manage upcoming bookings and set appointment reminders.

Schedule Appointment

Enter your details before creating an appointment.

Identification Number to ensure accurate identity **verification**, compliance with **regulatory requirements**, and **patient record matching**.

I don't have any of these [click here](#)

LACK OF SERVICES

PROBLEMS

Shortage of resources in health facilities.

SOLUTIONS

Combine healthcare services and education

Create specialized digital health training hubs linked to universities and clinics

IMPACT

Job opportunities for youth through work based training programs where students learn by working on real healthcare systems

IMPACTS

- Bridges skills gap
- Creates local jobs
- Links learning to work
- Cuts services delays
- Scales fast
